How Does it Feel to Experience Flow?

"If you are interested in something, you will focus on it, and if you focus attention on anything, it is likely that you will become interested in it."

—Mihaly Csikszentmihalyi, Hungarian Psychologist

According to Csikszentmihalyi, there are ten factors that accompany the experience of flow. While many of these components may be present, it is not necessary to experience all of them for flow to occur:
